Revitalizing Navajo and Hopi Energy Communities

Interagency Working Group on Coal and Power Plant Communities and Economic Revitalization

Briggs M. White, Ph.D.
Deputy Executive Director

September 2021
## Agenda

1. **Welcome**  
   Briggs White, Deputy Executive Director, Energy Communities IWG  
   1:00 – 1:05 p.m.

2. **Opening Remarks**  
   Brian Anderson, Executive Director, Energy Communities IWG & Director, NETL  
   **Distinguished Guests**  
   - Navajo Nation President Jonathan Nez  
   - Hopi Tribal Chairman Timothy Nuvangyaoma  
   - U.S. Representative Tom O’Halleran  
   1:05 – 1:30 p.m.

3. **Federal Funding to Support Energy Communities and Q&A**  
   Briggs White, Deputy Executive Director, Energy Communities IWG  
   - U.S. Economic Development Administration, Frances Sakaguchi, Cynthia Ptak  
   - U.S. Department of Interior  
     - Bureau of Land Management, Susan Lee, Gerald Davis  
     - Office of Surface Mining Reclamation and Enforcement (OSMRE), Matthew Magruder  
     - Bureau of Indian Affairs, Johnna Blackhair, Carla Clark  
   - National Telecommunications and Information Administration (NTIA), Vanessa Cresci, Gabriel Montoya  
   - U.S. Department of Energy (DOE), Kate Gordon  
   1:30 – 2:50 p.m.

4. **Closing Remarks**  
   Wahleah Johns, Senior Advisor, Office of Indian Energy Policy and Programs,  
   Briggs White, Deputy Executive Director, Energy Communities IWG  
   2:50 – 3:00 p.m.

5. **Formal Program Concludes**  
   3:00 p.m.
Questions for Q&A: Ask By Voice

Raise Hand to Ask By Voice

All attendees are muted during the presentation but will be able to raise their hand to be unmuted to ask a question during Q&A only.

By Phone: Press *3 to raise your hand, you will be notified when you have permission to unmute by pressing *6

By Web: Select the smiley icon at the bottom of screen and then select “raise hand”

Raise hand
Questions for Q&A: Ask by Chat

By Chat (for Web Participants Only)

Send topic questions in Chat to all Panelists throughout the webinar by clicking the chat icon on the bottom right of screen.

For web: Send technical assistance questions in Chat to Host.
Final Reminders

Slides, webinar recording, and resources will be posted to EnergyCommunities.netl.doe.gov and sent by email.
Opening Remarks

Distinguished Guest Speakers

• Brian Anderson
  Executive Director, Energy Communities IWG
  Director, NETL

• Navajo Nation President Jonathan Nez

• Hopi Tribal Chairman Timothy Nuvangyaoma

• U.S. Representative Tom O’Halleran

Empowering Workers Through Revitalizing Energy Communities

The Workforce of the Future

Interagency Working Group on Coal and Power Plant Communities and Economic Revitalization

Brian J. Anderson, Ph.D.

Executive Director, Interagency Working Group on Coal and Power Plant Communities and Economic Revitalization

Director, National Energy Technology Laboratory

September 2021
Coal and Power Plant Communities and Economic Revitalization

- The Interagency Working Group (IWG) was established by Executive Order 14008, Sec. 218, on Jan. 27

- The IWG released an Initial Report with recommendations to catalyze robust economic activity and support workers in America’s energy sector
Identified **25** priority Energy Communities

Coal communities identified as immediately challenged

Additional analyses forthcoming

Figure 2 in the report. The IWG recommends focusing initial federal investments in areas with high concentrations of coal-dependent jobs.
Investments

$38B in potential funding

Economic Development Administration (EDA) American Rescue Plan

INVESTING IN AMERICA’S COMMUNITIES
EDA’s Mission

To lead the federal economic development agenda by promoting innovation and competitiveness...

- Increase America’s global **ECONOMIC COMPETITIVENESS**
- Support **COMMUNITY-LED ECONOMIC DEVELOPMENT**
- Help communities develop **RESILIENT AND AGILE** local economies
$3 Billion in American Rescue Act funding to Invest in America’s Communities

This **historic investment** will support bottom-up, economic development focused on advancing equity, creating good-paying jobs, helping workers to develop in-demand skills, building economic resilience, and accelerating the economic recovery for the industries and communities hit hardest by the coronavirus pandemic.
American Rescue Plan funding to invest in:

Jobs for Today
- Good Jobs Challenge
- Travel, Tourism, & Outdoor Recreation

Communities Built for All
- Economic Adjustment Assistance
- Indigenous Communities
- Coal Communities Commitment

Regions for the Future
- Build Back Better Regional Challenge
- Statewide Planning, Research, & Networks

$300M Coal Communities Commitment

Visit [www.eda.gov/arpa](http://www.eda.gov/arpa) for more information
Eligible Entities for EDA funding

Eligible lead institutions or regional coalition members include a(n):

- District Organization of an EDA-designated Economic Development District (EDD);
- Indian Tribe or a consortium of Indian Tribes;
- State, county, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions;
- Institution of higher education
- Public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State

*EDA does not provide funding to for-profit entities or individuals*
EDA’s Investment Priorities

- Equity
- Recovery & Resilience
- Workforce Development
- Manufacturing
- Technology-Based Economic Development
- Environmentally-Sustainable Development
- Exports & Foreign Direct Investment

To learn more about EDA’s Investment Priorities, visit: https://eda.gov/about/investment-priorities/
Coal Communities Commitment

EDA’s $300 million Coal Communities Commitment will ensure support for coal communities as they recover from the pandemic and create new jobs and opportunities.

COAL COMMUNITIES DEFINITION

Communities and regions that can reasonably demonstrate how changes in the coal economy have resulted or are anticipated to result in job losses and layoffs in any coal-reliant commercial sector. This includes, but is not limited to:

- Coal mining
- Coal-fired power plants
- Related transportation, logistics, and/or supply chain manufacturing industries

There is no pre-defined list of impacted coal communities.

To demonstrate eligibility, complete applications must provide appropriate third party economic and demographic statistics that document the extent to which contractions in the coal economy have negatively impacted the community or region.
Indigenous Communities

Develop projects designed to create the conditions for economic growth in Indigenous communities and to accelerate economic recovery from the pandemic

- Additional $100 million in Economic Adjustment Assistance (EAA) funds will specifically support Indigenous communities and can be used to fund nontraditional EAA projects, like health centers

- A wide range of technical, planning, workforce development, entrepreneurship, and public works and infrastructure projects are eligible for funding under this program

- This competition is open only to Indian Tribes, as defined in EDA’s regulations, nonprofits serving Native Hawaiians, and nonprofits serving Native Pacific Islanders

100% grant rate – No match required
Economic Adjustment Assistance
$500 million

*Invest in infrastructure, technical assistance, planning, and revolving loan programs through competitive grants available to every community*

- Most flexible American Rescue Plan program; intended to fund non-construction and construction activities not already part of another Notice of Funding Opportunity (NOFO).

- A wide range of technical, planning, workforce development, entrepreneurship, and public works and infrastructure projects are eligible for funding under this program.

- EDA encourages application submissions based on long-term, regionally oriented, coordinated, and collaborative economic development or redevelopment strategies that foster economic growth and resilience. This includes plans aimed at building stronger regional economic links between urban centers and rural areas.

$200M Coal Communities Commitment
Build Back Better Regional Challenge

Two-Phased Approach

**Phase I:** 50-60 regions awarded technical assistance grants to finalize plans for project clusters

*Total: ~$500,000 per region*

**Phase II:** 20-30 regions from Phase I regions awarded implementation grants from full project cluster applications

*Total: ~$25-75m, up to $100M per region*

**Phase 1 Deadline:**
- October 19, 2021
- 100% grant rate

**Phase 2 Deadline:**
- March 15, 2022
- 80:20 match rate
Travel, Tourism, & Outdoor Recreation

$750 million

Accelerate communities impacted by COVID-related travel and tourism decline through block grants to states and competitive grants

State Grants: $510M

- Award allocations to each state and territory based on economic development indicators in the leisure and hospitality industries
- Can fund destination marketing, but cannot fund economic diversification projects

Challenge: $240M

- Assist communities that suffered economic injury because of job losses in travel, tourism, or outdoor recreation sectors
- EDA prefers projects that directly support the travel, tourism, and outdoor recreation sectors; but will consider diversification projects
- Cannot fund local destination marketing
Good Jobs Challenge

Strengthen regional systems to train workers with in-demand skills through employer-driven training models that support participants with wrap-around services and employer commitments to hire

System Development
Funding to help an organization establish and develop workforce systems and sectoral partnerships

Program Design
Funding to develop skills training curriculum and materials, secure technical expertise to train workers, and secure employer commitments to hire

Program Implementation
Funding for non-construction projects to provide workforce training and connect workers with quality jobs, including wrap-around services

National Competition
Deadline: January 26, 2022
EDA AMERICAN RESCUE PLAN

The American Rescue Plan allocates $3 billion to EDA in supplemental funding to assist communities nationwide in their efforts to build back better by accelerating the economic recovery from the coronavirus pandemic and building local economies that will be resilient to future economic shocks.

American Rescue Plan funding enables EDA to provide larger, more transformational investments across the nation while utilizing its greatest strengths, including flexible funding to support community-led economic development.

EDA is making a Coal Communities Commitment, designating $300 million of its $3 billion American Rescue Plan appropriation to ensure support for these communities as they recover from the pandemic and create new jobs and opportunities, including through the creation or expansion of a new industry sector.

IWG – Revitalizing Navajo and Hopi Energy Communities

Abandoned Mine Lands (AML) Program
AML Program Purpose

Reclaiming **hard rock** (non-coal) abandoned mines
- Abandoned prior to January 1, 1981
- No claimant of record
- No viable potentially responsible party

Physical safety hazards and environmental degradation
- BLM administered or affected

Risk-Based
Return to productive use

Hard Rock – gold, silver, copper, lead, zinc, magnesium, nickel, molybdenum, tungsten, uranium, and selected other minerals (generally locatable under the 1872 Mining Law).
Budget

2021 $38.5M (includes HazMat clean up funds also)
  AZ - $2
  NM - $3.5
  UT - $1.7

Additional funding from
  Central HazMat Fund (CHF)
  Defense Related Uranium Mine (DRUM)

New in FY22 - Each BLM State Office will develop a State Environmental Clean Up Action Plan (SECAP) that is updated annually to identify program priorities and projects

AMLER Purpose

• Economic/Community development with a nexus to Abandoned Mine Land (AML) problems
• Allows funds to be spent on reclamation and economic/community development
• Encourages leveraging public and private funding sources
• Projects must develop a site or create favorable conditions to attract future development
• Measures success of program that invests in development of historic coal communities
• Congress has allocated annual funding for the AMLER program since FY 2016 totaling $655 million through FY 2021.

Rendering of the future Shonto Hotel for the FY 2019 Navajo Nation AMLER Project
AMLER Funding
(Millions of Dollars)

Source of Funding: U.S. Treasury (as part of the annual Consolidated Appropriations Act – specific laws noted below)
AMLER Project Eligibility

Eligibility:

- Identified States and Tribes are eligible to receive funds

- Nexus to areas impacted by coal AML (abandoned prior to 1977)
  - Unreclaimed
  - Previously reclaimed

- Nexus to Economic or Community Development
  - Category A - Current Projects
  - Category B - Creates Conditions for Future Development

- Guidance Document for AMLER project eligibility

Examples of Project Benefits:
• Jobs created
• Businesses created, served, or improved
• Communities served or improved
• Households served or improved
• New or existing students served or improved
• Number of visitors
• Infrastructure created, increased, enhanced, or restored

Summary of Projects Presented in the Annual AMLER Report

AMLER Projects

**Project Status:** (includes projects from FY 16 - FY 19)
- As of January 22, 2021:
  - 180 active projects that received preliminarily approval
  - 120 of those active projects have received OSMRE’s Authorization to Proceed
  - 20 of those projects have been completed

**Types of projects that have been approved:**
- Industrial Parks
- Food Production
- Outdoor Recreation
  - Trail Systems
  - Boat Launches
  - Public Parks
  - Campgrounds
- Visitor Attractions
- Training Center
- Infrastructure
  - Water Supply
  - Electric/Gas Lines
  - Broadband
  - Electricity Generation
Status of AMLER Projects for the Hopi Tribe and Navajo Nation

Project Status: (includes projects from FY 18 - 19)

- As of January 22, 2021, the Navajo Nation has:
  - 2 active projects that received preliminarily approval.
  - 1 of those active projects have received OSMRE’s Authorization to Proceed.
  - That project (Kayenta Industrial Park) is estimated to be completed in 2023.

- As of the same date, the Hopi Tribe has no projects submitted for preliminary approval.
Example AMLER Project from the Navajo Nation

Summary of the Kayenta Industrial Park Infrastructure Project:

- Utilizes $3.3 million to expand the infrastructure of the Kayenta Industrial Park.
  - Up to 4,800 linear feet of waterline
  - 7,800 linear feet of sewer line
  - 0.7 mile of road within the park
  - Widening the connecting roads.
- Goal to attract new businesses and provide jobs for the local community (44.25% unemployment rate).
- Received multiple letters of interest from businesses that could expand development of the industrial park.
Tips for AMLER Fund Applicants

How do I submit a project application?
For Navajo Nation projects, visit: https://www.aml.navajo-nsn.gov/AML-Pilot-Project
For more information, please contact the Navajo Nation AML Reclamation Department:
Rose Grey, Program Manager II - (505) 368-1221
Melvin Yazzie, Principal Mining Engineer - (505) 369-1224
Marietta Jensen, Programs & Projects Specialist - (928) 871-6584
Email: aml@navajo-nsn.gov

For Hopi Tribe Projects, please contact:
Keith Pahovama, Manager Hopi AML Program
Phone: (928) 206-9290  Email: KPahovama@hopi.nsn.us

What Types of Projects are eligible for funding”
Criteria and examples can be found in OSMRE’s Guidance Document and Annual AMLER Report.

Can I leverage AMLER funds with other Federal funds?
Yes. Applicants are encouraged to leverage other private and public funding sources (e.g. the Economic Development Administration [EDA]).
Yolande Norman-Moore, Chief, Division of Reclamation Support
ynorman@osmre.gov

Sterling Rideout, Assistant Director, Program Support Directorate
srideout@osmre.gov

Office of Surface Mining Reclamation & Enforcement | OSMRE.GOV
Activities That Support Energy Transition and Clean Energy Development
Resolve issues that impede oil and gas development, continuing operations, and final close-out on trust/restricted land

Cooperate with Tribes and Indian mineral owners

Expedite nationwide trust functions

Ensure coordinate, collaborate, and promote resource and information sharing between Federal agencies

PARTNERSHIPS: DOE EPA IEED USFWS USACE
In support of Indian energy (renewable and conventional) development and management, the IESC operates in two main functional areas:

- Departmental Coordination
- Processing Support
- Standard Operating Procedures (SOP) updates
  - Attachment A - Fluid Minerals
  - Attachment C – Solid Minerals
  - Attachment F – IMDAs
  - Attachment H – Renewable Energy
  - Attachment I – TERA/TEDO

“To enhance the quality of life, to promote economic opportunity, and to carry out the responsibility to protect and improve the trust assets”
Renewable Energy Accelerated Deployment Initiative
for Indian Country

**READI for Indian Country**
Indian Energy Service Center

**Action Item:** The Department should undertake immediate and proactive measures to increase implementation of renewable energy on Indian lands via the Standard Operating Procedures (SOP) Attachment H – Renewable Energy Resource Development on Indian Lands

**Action Proposed:** The action needed here is to develop a structured effort for proactive implementation of renewable energy on Indian lands.

**Next Steps:** The IESC will disseminate information related to Attachment H; including current content, proposed updated content, review and comment periods, and Leadership direction, implementation approach, scheduling, and related efforts. Follow-up discussions and future actions will be supported/implemented as directed by Leadership and as needs arise.
READI for Indian Country

Elements of the Initiative

• Enhanced outreach and communication to Tribes on existing renewable energy development opportunities (i.e. assistance programs from DOE and DEMD)

• Consultation, outreach, listening sessions to Tribes and Individual Indian owners

• BIA Regional and Agency Offices are invited to participate – future events to be determined

• Regulatory updates, process development, streamlined leasing procedures

• Potential additional public resources and support functions to include technical assistance, permit coordination, and others for Tribes
Tribal Broadband Connectivity Program
Consolidated Appropriations Act, 2021
Consolidated Appropriations Act, 2021
Grant Programs Overview

1. **Tribal Broadband Connectivity Grants:**
   Grants to expand access to and adoption of: (A) broadband service on Tribal land; or (B) remote learning, telework, or telehealth resources during the COVID-19 pandemic: $980 Million.

2. **Broadband Infrastructure Deployment Grants:**
   Grants for covered broadband projects, defined as competitively and technologically neutral projects for the deployment of fixed broadband service in a census block with at least one household or business that does not have access to 25/3: $288 Million.

3. **Connecting Minority Communities Pilot Program:**
   Grants to eligible recipients in anchor communities for the purchase of broadband internet access service or any eligible equipment, or to hire and train information technology personnel: $268 Million.

*Consolidated Appropriations Act, 2021*
# Tribal Broadband Connectivity Program

<table>
<thead>
<tr>
<th>How Much</th>
<th>$1 Billion</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Who Can Apply</strong></td>
<td>Includes a Tribal Government, a Tribal College or University, the Department of Hawaiian Home Lands on behalf of the Native Hawaiian Community, including Native Hawaiian Education Programs, a Tribal organization, or an Alaskan Native Corporation.</td>
</tr>
<tr>
<td><strong>For What</strong></td>
<td>Deployment and adoption of broadband service on Tribal Land and for programs that promote the use of broadband to access remote learning, telework, workforce development, or telehealth resources during the COVID–19 pandemic.</td>
</tr>
<tr>
<td><strong>When</strong></td>
<td>NTIA closed application window for the Tribal Broadband Connectivity Grant through <strong>September 1, 2021</strong>.</td>
</tr>
</tbody>
</table>
Eligible Uses

Section 905(c)(5) of the Act states that an eligible entity may use grant funds made available under the Tribal Broadband Connectivity Program for:

(A) broadband infrastructure deployment, including support for the establishment of carrier-neutral submarine cable landing stations;
(B) affordable broadband programs, including— (i) providing free or reduced-cost broadband service; and (ii) preventing disconnection of existing broadband service;
(C) distance learning;
(D) telehealth;
(E) digital inclusion efforts; and
(F) broadband adoption activities
Tribal Nations

NTIA is committed to increasing broadband Internet access across America, particularly in unserved and underserved communities. BroadbandUSA and NTIA serve federally recognized tribal governments and Hawaiian home lands that seek to expand broadband connectivity and promote digital inclusion through solution-neutral guides and resources, group technical assistance, interagency coordination, and administration of grant programs.

Tribal Broadband Connectivity Program (TBCP)

The Consolidated Appropriations Act, 2021, provides new sources of tribal broadband funding to assist in mitigating the effects of the COVID-19 pandemic which is exacerbating the digital divide across Indian Country. With the designated funding, NTIA is developing the Tribal Broadband Connectivity Program (TBCP), a $1 billion program directed to tribal governments to be used for broadband deployment on tribal lands, as well as for telehealth, distance learning, broadband affordability, and digital inclusion. Entities eligible for TBCP grants include tribal governments, tribal organizations, TCUs, the Native Hawaiian Community, and Native Corporations.

- Notice of Funding Opportunity (NOFO) published on grants.gov
- Frequently Asked Questions (FAQs) 06-09-2021
Expected Timeline

Applications submitted in Grants.gov

• Applications were due no later than September 1, 2021, 11:59 PDT
• Applications were submitted through grants.gov, email, or through the mail

NTIA Will Review Applications in Accordance with the NOFO

• Eligibility Review
• Merit Review
• Programmatic Review
• NTIA will reach out to applicants with questions on the application, as appropriate

Selection Process

• Assistant Secretary of Commerce will select and recommend applications for funding to NOAA Grants Officer
• Review, select, and award processing by November 29, 2021
• Start date for awards expected to be December 13, 2021, at the earliest

Fossil Energy & Carbon Management Priorities

**Demonstrate and Deploy Point Source Carbon Capture**
RDD&D for CCS in the power and industrial sectors to enable wider, strategic commercial deployment to meet net-zero emissions goals by 2050.

**Advance Carbon Dioxide Removal & Low Carbon Supply Chains for Industry**
Research, develop, and demonstrate CDR approaches by investing in direct air capture and mineral carbonation projects and develop novel approaches to recycle carbon emissions.

**Low-Carbon Industrial Supply Chains**
Develop novel approaches to recycle carbon emissions into value-added products such as concrete, steel, chemicals, and fuels using systems-based carbon management approaches consistent with realizing a net-zero carbon economy by 2050.

**Accelerate Zero-Carbon and Carbon-Neutral Hydrogen (H2)**
Develop technologies that leverage the natural gas infrastructure for H2 production, transport, storage, & use, coupled to carbon management.

**Reduce Methane Emissions**
Develop technologies and deploy regional initiatives to monitor and reduce methane emissions from fossil fuel infrastructure including coal, oil, and gas.

**Advance Critical Minerals, Rare Earth Elements, Carbon Utilization, and Mine Remediation**
Improving REE separation/recovery technologies to manufacture products from CO2 and carbon ores to address current market and process economics. Advancing R&D to address abandoned mines.

**Increase Efficient Use of Big Data and Artificial Intelligence**
Use AI, machine learning, and data analysis to create learning algorithms within large dataset to help discover new material, optimize processes, and run autonomous systems.

**Address the Energy Water Nexus**
Improve our efficient use of scarce water resources advance water remediation technologies to address the environmental impacts related to produced or displaced water associated with oil, gas, and coal industries, in addition to that associated with dedicated CO2 storage.

**Invest in Thoughtful Transition Strategies**
Invest in technologies and approaches and deploy regional initiatives to help create an equitable and just transition to a net-zero carbon economy in energy communities.
## Office of Electricity Workstreams

<table>
<thead>
<tr>
<th>Workstream</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Advanced Grid Research &amp; Development</strong></td>
<td>Develops and manages projects for “next generation” electricity delivery technologies and supporting activities to accelerate their introduction into the marketplace.</td>
</tr>
<tr>
<td><strong>Energy Resilience</strong></td>
<td>Works with electricity system partners and stakeholders to modernize the grid and ensure equitable and adequate transmission capacity across the United States.</td>
</tr>
<tr>
<td><strong>Grid Operations Technology</strong></td>
<td>Engineers end-to-end systems for grid modeling, operations, security, measurement, and synchronization at scale.</td>
</tr>
</tbody>

Bonneville Power Administration  
Southeastern Power Administration  
Southwestern Power Administration               |
Loan Programs Office: Opportunities to Repurpose

Conversion to Clean Energy Assets
- Redevelopment of abandoned sites can mitigate the economic impact of plant and mine closures
- Redevelopment can leverage significant portions of the existing asset to accelerate clean energy deployment at a lower cost
- Transmission access point can be particularly valuable...especially in MISO

Options that Could Potentially Be Eligible for DOE Loans & Loan Guarantees
- Nuclear (SMRs and Microreactors)
- Numerous technologies are expected to have NRC licenses by 2025
- Hydrogen
- Battery Energy Storage System (BESS)
- Solar and Wind
- Can help utilities meet state RE mandates
- Require larger tracts of land that may not be available on the existing footprint
- Thermal Energy Storage (TES)
- Great match with labor skillsets from previous coal-fired generation facility
DOE’s Annual Procurement Process Flow - Notional

Follow the Money
Ongoing

Structure the Opportunity
June-Dec

Conduct the Competitive Phase
Jan - June

Select, Negotiate and Award Projects
July - September

Advance the Technology
Ongoing

- President’s Request Budget (PBR)
- House Committee Mark
- Senate Committee Mark
- Annual FY Appropriation

- Generate Spend Plans for all Programs
- Complete Acquisition Planning Process
- Identify Portfolio of Procurements to be Initiated
- Schedule Critical Path Milestones

- Develop Planning Documentation
- Publish RFP or NOI
- Issue Procurement
- Initial Screening, Qualify Applications
- Develop Consensus, Score Applications

- Select and Announce Winners
- Initiate Negotiations
- Finalize Awards

- Technology Maturation Planning
- Technology Readiness Assessments
- Independent Program/Project Peer Reviews
- Inform Future R&D Needs
Resources

• **Contact us**
  • We’ll connect you with the right person

• **Signup to receive notifications**
  • FedConnect.gov – funding
  • DOE Programmatic Listservs – newsletters & events

• **Partner with National Labs**
  • Technical Assistance
  • Regional POC

• **Network at Program and Project Review Meetings**
  • Meet partners
  • Hear the latest
Thank you!
